Agriculture	Level 3	Full-Time	2 years	September 2025

## Practical vs Theory

## The Course

Are you looking to develop a career in crop and plant production? This Agriculture T Level course, focusing on arable, will give you the knowledge and skills you need. You'll enjoy the ultimate blend of theoretical study in the classroom, gaining hands-on experience on our commercial farm and out in industry. T Levels have been developed in collaboration with employers to meet industry needs. They are a Level 3 qualification equivalent to 3 A Levels and offer you a balance of classroom theory, practical learning and a hands-on industry placement. You will spend 55% of your time in the classroom and the other 45% undertaking practical activities, including time spent in the workplace. This varies depending on the time of year. T Levels also carry UCAS points to take you on to university.

## Course Aims

- > To provide you with practical and knowledge-based learning, with specialist components focused on crop and plant production.
- > Allow you to study and develop skills in real working environments, preparing you for employment.
- > To give you the knowledge you need to progress to university level study, should you wish.

## What You Will Study

- > Sustainability, including environmental legislation, sustainable development, climate change and waste management principles
- > The principles of biosecurity
- > Employment rights and responsibilities and progression opportunities within the sector
- > Ethical principles
- > The supply chain and principles of stock management
- > Business organisations, enterprise skills and project management
- > Characteristics protected by equality legislation
- > Communication
- > Principles of customer care
- > Finance
- > Health and safety
- > Information and data
- > Occupational specialism: Crop and Plant Production

## Entry Requirements

You will need 4 GCSEs at grade 4 or above. These must include English and Maths.

## Teaching and Learning Approach

You will learn through classroom sessions, practical work and blended learning.

## Time Required on Campus

You will usually be on campus four days per week.

## Work Experience

You will need to undertake a minimum of 315 hours (approximately 45 days) of on-the-job experience through an industry placement.

## How You're Assessed

You will be assessed through formative assessments, synoptic assessments and examinations.

## Clothing, Equipment and Additional Costs

- > Overalls
- > Steel toe capped boots
- > Hi-vis vest
- > Wellington boots

## Progression

This T Level will allow you to progress to university level study or straight into employment.

## Careers

This course will allow you to explore careers as an assistant farm manager, farm manager, farm consultant, agronomist, and many more.
